

The following are clinical pastoral education supervisors who have served all or part of their CPE ministry in the North Central Region and have recently retired from full-time ministry while residing in the North Central Region. It does not include supervisors who have moved to other regions and have then later retired from ministry while in another region.

While it is nearly impossible to tally the exact number of units supervised by this group or the hours spent in student concerns, the contributions they have made to the personal and professional growth of persons taking CPE are immense. Their many years of CPE include much joy in watching students grow in both self-understanding and ministry skills as well as the personal and professional pain present in the CPE enterprise and ministry in general.

We present our sincere thanks and deep gratitude to them for their faithful endeavors and service.

Mark Anderson (ELCA) – Ord. 1959	Metropolitan Med Ctr	Minneapolis, MN
